Higgin graduated from the University of Utah in 1990 with PhD in Robotics. He currently resides in San Diego, CA with his wife and they are proud parents of two daughters.

Higgin has served U.S. Navy R&D Lab in San Diego, CA for more than 25 years. Beyond his career success in computer engineering and information technology, he has had extensive international technical cooperative experience. Recently, he has served as a Science Director in Tokyo, Japan and collaborated with researchers in Asian countries for more than five years. He has supported their basic researches especially in information science.

Higgin has been helping friends and family entrepreneurship especially in digital marketing and information management. As a webmaster, Higgin has been supporting various nonprofit organizations, including Pacific Rim Park and Alliance for Quality Education.
